

REPORT

CD NO.

DATE DISTR. 4 January 1955

NO. OF PAGES 1 25X1

NO. OF ENCLS. LISTED BELOW 25X1

**SUPPLEMENT TO
REPORT NO.**

THIS IS UNEVALUATED INFORMATION

1. Because of the shortage of electric power for industrial consumers, the amount of electricity for private consumption was to have been reduced after the 17 October 1954 elections. At the beginning of October 1954, VEB Elektro-Chemie, Hirschfelde, was working at only 30% of capacity because of lack of power. A similar situation was reported at the chemical plant in Piesteritz. The Buna Werk is also seriously affected by this power shortage.
2. The lack of production of carbide, caused by the power shortage, is said to have had serious results. This condition was further aggravated by the wrong disposition of carbide for export by Dr. Werner Winkler, Deputy Minister for Chemistry of the Ministry for Heavy Industry.
